FOLEY  GLASS

Photo: Frameless fixed single panel design with chrome hardware

## OUR RANGE

# *Shower & bath screens*

**Foley Glass offers four main shower screens; frameless, semi frameless, semi framed and framed. Each design can be individualised based on your bathroom; door type, glass type, frame and hinge colours are fully customisable.**

### ► **Frameless**

A sleek timeless design where every panel has smooth glass edges with no visible frame in 10mm toughened glass. This type of shower screen helps create a sense of space and openness in the bathroom.

### ► **Semi Frameless**

Semi frameless showers are framed around the outside perimeter only in 6mm toughened glass. All internal edges and doors are frameless. Semi frameless showers offer a clean, contemporary look at about half the price of a frameless design. With a semi frameless option, the frame can be customised in various colours to complement your bathroom design.

### ► **Semi Framed**

Semi framed showers are framed around the external perimeter of the shower and the internal vertical edge between the fixed glass pane in 4-6mm toughened or laminated glass. The glass door is frameless. With a semi framed option the frame can be customised in various colours to complement your bathroom design.

### ► **Framed**

Framed showers have an aluminium frame around all edges of the glass which is 4-6mm toughened or laminated glass. The frames can be customised in various colours to complement your bathroom design.

## CONFIGURATION:

# ***Fixed panel***

A fixed panel shower screen configuration is a single panel of glass which offers open, walk in access to the shower.

Ideal for creating a clean look, or making smaller bathrooms appear larger. A fixed panel of glass can be frameless or framed.

Fixed panel frameless showers can also be customised with a curved top edge. This curve can have a radius of as much or as little as you like.

- Frame options: frameless or framed
- Glass types: clear, low iron, reeded, low iron reeded, acid etched, low iron acid etched and a selection of patterned glass
- Frame and hardware colours: see page 7 and 8

## CONFIGURATION:

# ***Front and return***

A front and return shower screen features a front facing door and a return panel.

The return panel can be positioned on either side of the door. This type of shower screen works well in a corner space.

This configuration can be frameless, semi frameless, semi framed and framed.

- Door opening options: handle, knob, or polished hole
- Door style options: hinged, slider or pivot
- Glass types: clear, low iron, reeded, low iron reeded, acid etched, low iron acid etched and a selection of patterned glass
- Frame and hardware colours: see page 7 and 8

## CONFIGURATION:

# ***Front only***

A front only design is a shower screen made up of a door and a fixed panel with no return.

This configuration can be frameless, semi frameless, semi framed or framed.

- Door opening options: handle, knob or polished hole
- Door options: hinged, slider or pivot
- Glass types: clear, low iron, reeded, low iron reeded, acid etched, low iron acid etched and a selection of patterned glass
- Frame and hardware colours: see page 7 and 8

## CONFIGURATION:

# ***Slider***

Slider shower screens are designed for easy access with a sliding door opening and can be configured in a frameless, semi frameless or framed design.

In a frameless slider configuration, the glass door is attached with visible fittings on a top rail. In a semi-frameless design, the glass door fittings are concealed in the top section of the frame.

- Door opening options: handle, knob or polished hole
- Glass type: clear, low iron, reeded, low iron reeded, acid etched, low iron acid etched and a selection of patterned glass
- Frame and hardware colours: see page 7 and 8

## CONFIGURATION:

# ***Bath panel***

Bath panels are perfect for shower and bath combinations.

Bath panels can be a single fixed panel, fixed and swing panel or a swing and swing configuration.

A bath panel can be frameless or framed.

- Glass types: clear, low iron, reeded, low iron reeded, acid etched, low iron acid etched and a selection of patterned glass
- Frame and hardware colours: see page 7 and 8
